İmalatımız size özel tasarlandı...

Günümüz üretim dünyasında artan rekabet ortamı sebebiyle üretim yapan her işletmenin girdi prosesindeki en önemli hedefi uygun kaliteyi en iyi fiyata alabilmek olmuştur. Bu hedefe yönelik hassasiyet ve çaba her geçen gün artmaktadır. Bu hassasiyetin yanında iyi müşteri ilişkileri, güvenilirlik, üretim esnekliği, kapasitesi ve hızı, ürün çeşitliliği, sürekli yenilik gibi etkenlerde tercih sebebi olmaktadır. Bütün bu öne çıkan ayrıcalık ve tercih sebebi olan özellikleri müşterilerimize sunabilmek için iyi bir kalite anlayışı, teknolojik gelişmelere açık, verimlilik odaklı, esnek bir üretim sistemi ve profesyonel çalışanlarla hizmet sunan, müşteri odaklı bir anlayış gereklidir.

Everest Çelik Kapı olarak tüm bu gerekliliklerin analizini dikkatle yaparak, iyi fiyat, uygun/aranan kalite, müşteri odaklılık ve sürekli gelişip kurumsallaşmaya hedefleri ile 2007 yılında çıktığımız yola bugün 15.000 metre kapalı alanda, doksan çalışanımız ile devam etmekteyiz. 2023 yılında ürün portföyümüze eklenen yeni modelleri, yine müşterilerimizin bu alandaki ihtiyaçlarına da çözümler sunarak, hizmet vermekteyiz. Temennimiz bu modellerle sektörde kalıcı olarak ihtiyaçlarınıza hızla cevap verecek, ekonomimize destek sağlayarak büyüyen bir işletme haline gelebilmektir. Çıktığımız bu yolda bizi tercih ederek onurlandıran, siz değerli müşterilerimize teşekkürlerimizi sunarız.

Due to the increasingly competitive environment in today's production world, the most important goal of every manufacturing enterprise in the input process has become to get the appropriate quality at the best price. The sensitivity and effort directed toward this goal are growing by the day. Aside from this sensitivity, factors like good customer relations, dependability, production flexibility, capacity, speed, product variety, and continuous innovation are preferred. To provide all of these prominent benefits and desirable features to our customers, we must have a good understanding of quality, be open to technological developments, have an efficiency-oriented, flexible production system, and a customer-oriented understanding that provides service to professional employees.

At Everest Steel Door, we continue our journey that began in 2007 with the goals of affordable price, appropriate, desired quality, customer orientation, and continuous development and institutionalization with ninety employees in a closed area of ten thousand meters today. New models were added to our product portfolio in 2023, and we are assisting our customers by providing solutions to their needs in this field. With these models, we hope to become a growing business that will respond quickly to your needs and support our economy. We'd like to thank you, our valued customers, for honoring us by choosing us on this journey.

نظرا للبيئة التنافسية المتزايدة في عالم الإنتاج اليوم ، الهدف الأكثر أهمية لكل مؤسسة تصنيع هو الحصول على الجودة المناسبة بأفضل سعر .

تتزايد الحساسية والجهد نحو هذا الهدف يوم بعد يوم. بالإضافة إلى هذه الحساسية ، فإن العلاقات الجيدة مع العملاء ، الموثوقية ، مرونة الإنتاج ، الطاقة الانتاجية ، السرعة ، تنوع المنتجات ، والابتكار المستمر هي احد اسباب تفضيل عملائنا لنا .

وهذا يتطلب منا الفهم الجيد للجودة ، الانفتاح على التطورات التكنولوجية ، التوجه نحو الكفاءة ، نهج موجه نحو العملاء ، توفير الخدمات ، الموظفين المحترفين ، والمرونة من أجل أن نكون قادرين على تقديم كل هذه الميزات البارزة التي هي سبب تميزنا .

بصفتنا مصنع إيفيرست للابواب ، من خلال تحليل جميع هذه المتطلبات بعناية ، نواصل الطريق الذي بدأناه في عام 1998 بهدف السعر الجيد ، الجودة المناسبة ، التركيز على العملاء والتطوير المستمر ، مع تسعين موظفًا لدينا في منشأة مغلقة تبلغ مساحتها 15.000 مترًا اليوم .

مع إضافة الموديلات الجديدة إلى مجموعة منتجاتنا في عام 2023 ، نقدم أيضًا حلولًا لاحتياجات عملائنا في هذا المجال .

أملنا هو أن نصبح شركة متنامية من خلال تقديم الدعم لاقتصاد بلدنا والاستجابة السريعة لاحتياجات عملائنا في هذا القطاع .

نود أن نعرب عن امتناننا لكم ولعملائنا الكرام الذين شرفونا باختيارنا في هذه الرحلة .

Sürdürülebilir Çevre ve Üretim

Firmamız sürdürülebilir bir çevre için, tüm enerji ihtiyacını güneş enerji panellerinden karşılamaktadır.

Bu sayede 1.5 milyon kWh'lık elektrik ihtiyacı, yenilenebilir enerjiden karşılanmaktadır. Böylece 510 bin ağacın azaltılabileceği sera gazı miktarına eş değer karbon emisyonunu engellemiş olacağız.

For a sustainable environment, our company meets all its energy needs from solar energy panels, thus, the electricity needs of 1.5 million kWh are met from renewable energy.

In this way, we will prevent carbon emissions equivalent to the amount of greenhouse gas that 510.000 trees can reduce.

من أجل بيئة مستدامة ، تلبى شركتنا جميع احتياجاتها من الطاقة من ألواح الطاقة الشمسية ، وبالتالي ، يتم تلبية احتياجات الكهرباء البالغة 1.5 مليون كيلوواط/ساعة من الطاقة المتجددة. بهذه الطريقة ، سوف نمنع انبعاثات الكربون التي تعادل الكمية التي يمكن أن تقللها 510.000 شجرة.
